

21 JUL 1981

Skidmore, Owings & Merrill
1201 Connecticut Avenue, N.W.
Washington, D.C. 20036

Attention: Alan Carroll

Gentlemen:

Capital investment in a new building on the Langley Compound for consolidation of the Headquarters organization can achieve annual dollar savings in excess of \$10 million a year. These savings will result in reduction from life cycle costs of Government-owned communication equipments, reduction in leased circuitry, reduction in personnel and equipments in such activities as motor pool and couriers as well as reduction in other operational costs.

Sincerely,

[Redacted Signature]

Building Planning Staff
